EXAMINER'S AMENDMENT

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Regarding claims 1 and 19, the specific limitations of "...a keyboard overlay...having a plurality of individual key-accommodating structures, each said structure having at least a transparent upper surface to allow printed indicia on a key of the keyboard to be visible therethrough, and at least a portion of said transparent upper surfaces of said key-accommodating structures that correspond to alphabet keys of the keyboard having a lower-case letter positioned thereon in a non-interfering location relative to a position of the printed indicia on the alphabet key" and regarding claim 15, the specific limitations of "...a computer keyboard having a plurality of individual keys, at least a portion of said individual keys including a glyph of said upper-case letter and a glyph of an associated lower-case letter, wherein said glyph of said upper-case letter is positioned on a said keys, and wherein said glyph of said lower-case letter is positioned on a transparent layer that is overlaid on the keys such that both the upper-case letter and the lower-case letter are visible without interfering with one another" are not anticipated or made obvious over the prior art of record in the examiners opinion. It should be noted that the withdrawal of last rejection is based upon applicants arguments presented to the examiner on January 02, 2004, specifically page 6, third full paragraph and pages 10-11. Where applicants argue regarding the Polatschek reference teaching away from the

combination as proposed by the examiner and where applicants further argue that the combination of Kohl, ETN and Evans would not obviate applicants invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
